1	路樹倒塌占用路面，現場進行清除。	 <p>The photographs show a paved road in a rural area, likely in the Shizi Township Zhukeng community, blocked by large, uprooted trees and branches. The trees have green leaves, suggesting they are still relatively fresh. The road is narrow, and the surrounding area is densely wooded. The photos are arranged vertically, showing different angles of the fallen trees and the extent of the blockage.</p>
